The background of the entire image is a grid of architectural wireframe drawings. Each drawing shows a perspective view of a rectangular space with various internal partitions and angles. Some of these wireframes have a solid red color applied to a specific wall or surface. In several of the wireframes, there are simple line drawings of human figures walking through the spaces, providing a sense of scale and movement. The overall composition is a 3x3 grid of these wireframe drawings, with the text overlaid on the right side.

## reminders

Students are expected to attend the juries and follow the discussions on the designs presented by their classmates. It is further recommended that they attend juries held in other groups and classes as well.

Please be reminded that juries are final exams and that late-submissions will be evaluated accordingly.

Officially scheduled curricular activities at METU are required to be in English. Both students and jury members are kindly reminded of this requirement.
