To Whom It May Concern

METU Faculty of Architecture, Department of Architecture is greatly concerned with bringing together practical training with theoretical studies. An outcome of this concern is the compulsory Summer Practice courses for the first, second and third year students in the Undergraduate Program of Architecture. The student has to fulfill the requirements of these courses in order to graduate with a B.ARCH Diploma.

The Arch 390 - Internship In Professional Practice is conducted at the end of the third year and it aims to introduce students of architecture to the milieu in an architectural office by allowing them to observe and participate in project development, relations of projects and implementation and various office procedures. The duration of the summer practice is 30 work days and it is very important for the students to monitor different work processes during the internship.

According to the Law no. 5510 "Social Security and General Health Insurance", a statement of employment will be issued and the premium of the Insurance of Occupational Accidents and Professional Diseases will be paid by the University. In order to make this happen, the student needs to be informed about the address and the exact start and finish dates of the internship at least 20 days before the commencement day of the internship.

Finally, we kindly request you to submit the evaluation form to them student in a sealed and signed envelope after the work period in order to complete the grading process.

I thank you in advance for your invaluable contribution to the educational program of our school.

With my best regards,

Doç. Dr. Ayşem Berrin Çakmaklı

Chairperson
